

FOR CLERK
(Vote for One)

Monies collected from this particular tax shall by the Supervisors be kept in two separate accounts, the said moneys derived from maintenance taxes levied upon lands situated in the east Unit being kept in one account and the said moneys derived from Maintenance taxes levied upon lands situated in the west Unit being kept in another account. The expenditures for maintenance in the respective units shall only be made from the moneys raised from maintenance taxes levied upon lands derived from lands situated in the unit upon which said tax moneys shall be expended.

Section 7. All indebtedness which

alter, and not provided for in, but which may be incident to, the origi-

not authorized by this Act, shall only be incurred as a separate and distinct indebtedness for either the one or other of the units for the benefits of which said indebtedness may be incurred and such indebtedness, both as to principal and interest shall be paid only from taxes levied and imposed upon the lands in respective units for which such indebtedness shall have been incurred.

Section 8. Nothing in this Act

contained shall affect or change the boundaries of Pahokee Drainage District as heretofore established, its Plan of Reclamation or any action taken in respect thereof, or its supervisors, or officers, or their rights, powers and duties, and all the provisions of any general law or laws applicable to said Pahokee Drainage District shall be of the same force and effect and equally applicable as heretofore, SAVE and EXCEPT as herein otherwise expressly provided.

Section 9. This Act shall take effect upon its passage and approval by the Governor or upon its becoming a law without such approval.

March 15, 22, 291 April 5, 12, 19, 26.

EXPERIMENTS SHOW YIELDS OF PEANUTS

Closer Spacing Better Than Fertilizing, Agronomist Declares

Florida farmers who grow peanuts will have much better yields of increasing their yields by closer spacing than by applying fertilizer to the crop, is the belief of W. E. Stokes, agronomist of the Florida Experiment Station. Very little profit has been returned from the use of fertilizer on peanuts in Florida, states Mr. Stokes.

In a recent radio talk over WFLR, Mr. Stokes reviewed the results of fertilizer experiments on peanuts conducted by experiment stations in nearby states, and found that very little or no profit was made by the use of fertilizer. In a few cases slight increases were secured by the addition of 200 pounds of superphosphate per acre.

Experiments conducted at the station farm near Gainesville and also a number of cooperative experiments conducted on Jackson County farms support the recommendations of other states regarding the use of fertilizer. Mr. Stokes

It is commonly believed that the use of land plaster or gypsum is necessary for best results with peanuts, but Mr. Stokes declared that for the past five years do not support this belief. In announcing this fact, Mr. Stokes said that the tests were made on the same land for all of the period and it is possible that there may be some cumulative effect which is harmful to the crop. It is possible that peanuts grown in rotation might be benefited by the use of a small amount of this material.

Mr. Stokes have gotten larger yields from close spacing of peanuts than we have from any fertilizer, lime or land plaster treatment yet tried, says Mr. Stokes. In his close spacing for increased yields all of the experiment stations in the peanut belt and many of the farmers who agreed, he adds. By close spacing he means that Spanish peanuts should be planted in rows not over 2 to 2 1/2 feet wide and 3 to 6 inches in the drill. Runner peanuts, if planted, should be in 2 1/2 foot rows and 6 to 12 inches in the drill he concluded.

New Smyrna plans to develop park and playground.

Mr. J. Simonson and daughter, Ruth, returned to West Palm Beach Sunday to visit Mrs. Simonson.

Mr. and Mrs. J. E. Roberts and children of West Palm Beach were visiting Mr. and Mrs. Sam Harriott Sunday.

CANAL POINT

Mr. and Mrs. W. G. Williams and family from Georgia, are visiting his brother, I. G. Williams and expect to remain here until June or until the cropping season. Mr. and Mrs. Williams like the country and say they may settle here if they can dispose of their holdings in Georgia.

Mrs. Charles Constans of West Palm Beach is spending a few weeks with her daughter, Mrs. E. C. B. et al.

Mr. and Mrs. Bert Russell of St. Cloud, Minn., have been guests of Mr. and Mrs. C. Brackett the past few days. The Russells have been visiting over the state and are much impressed with this section.

Misses Carrieworth and Dorothy Atkins spent the week-end as guests of Mrs. Marjorie Davis in West Palm Beach.

Mrs. John Peacock of Homestead is visiting her sister, Mrs. Elly Stafford.

Miss Lena Mae Lamb of Ft. Lauderdale, who has been the guest of Mr. and Mrs. A. H. Hawick for the past three weeks expects to return to her home, Thursday.

M. L. Groover died at West Palm Tuesday of last week while visiting his home. Mr. Groover had been in charge of a crew of bean pickers in the Canal Point territory that J. E. Draper had brought down for the harvest.

WOMAN'S CLUB MEETING

The Canal Point Woman's Club held its regular meeting, Tuesday, April 2 at the home of Mrs. Vincent Stadnick. Mrs. Danis was hostess.

Plans for the new club house were discussed and it was decided to start building within the next few weeks. The club building lot was a donation by Mr. Bryant, of the sugar company and is located in the townsite adjoining the Custard apartment.

Those present at the meeting were: Mrs. G. H. Tucker, Mrs. Louis C. Gossely, Mrs. P. C. Filly, Mrs. Todd, Mrs. Westermeyer, Mrs. Theo Baker, Mrs. Frank O'Connell, Mrs. Colburn, Mrs. Jennings, Mrs. Mallard, Mrs. Stadnick and Mrs. Danison.

The annual election of officers was held last meeting. The new officers are:

Mrs. W. H. Vann, president.

Mrs. Louis C. Gossely, vice president.

Mrs. Clinton Colburn, corresponding secretary.

Mrs. A. L. Pope, treasurer.

Mrs. W. A. Adams, auditor.

NEW PACKING FIRM

SHIP CAR TOMATOES

The first car of the spring crop of tomatoes from Canal Point was packed and shipped last week by a new packing firm composed of W. L. Davis, L. F. W. H. Reed who have built a packing house on the Canal Point station road a few hundred feet north of the F. F. C. depot.

Speaking of the crop, Mr. Davis said that he expects the tomato season to begin in earnest next week and that his firm will be prepared to handle all that is offered.

Sunday school 9:45 a. m. and 2:30 p. m. at Tynes's.

Preaching 11 a. m. and 7:30 p. m. Preacher, preaching Wednesday, 7:30 p. m.

An all day meeting and picnic at the home of Mrs. John Tynes will be held on the ladies of the aid society, April 9th.

Through the kindness of friends a Easter service. There were two files, one of which was sent to a dead old lady of the home department, who is quite dead, but very fond of flowers.

The good news comes to us that we are soon to begin building our house of worship next to the present parsonage. This is due to the visit of Bishop Kennedy and C. W. McTyner, Dr. Schuyler E. Garb.

Elder E. L. Owens of Laidwell, Ga. will start a tent meeting Sunday morning at 11 o'clock on a lot north of the canal.

High School News

Mrs. Morgan's Class.

Mrs. Edith Morgan's class demonstration club instructor, comes out once a month. We have 24 on roll. Margaret Wilson is president; Emily Carter, secretary, and Harold Collins, treasurer. We have been working on some shoe bags.

The next time Mrs. Morgan comes we are to make curtains. We have now \$17 in the treasury.

We are going to use for making things to send to the 4-H club shop in West Palm Beach.

The last meeting was on the 13th of March. The next will be next week.

The various clubs will have a council meeting some time in April at Lake Worth. The dress and the club will be in the Women's Club at West Palm Beach.

The third and fourth grades had an Easter egg hunt Friday noon, after which they will be spread on the grass under the trees. All had a very jolly time. The high school boys and girls hid the eggs for them.

The seventh and eighth grades are having a contest. John Ross on one side and Frank Doman on the other.

The side that has the best attendance will school is out to be given a chicken plaid by the losing side. So far Frank Doman's side has had better attendance.

High school will close June 14 after much discussion the senior class has ordered their invitations. The seniors are also chosen by last year's class and have been ordered some time. They will be in a war for two weeks.

A senior play will be given at the end of school.

The seventh and eighth grade girls had a nice contest for an hour. The first articles made were put holders. Most of the girls have been working on them, and have started unbuttoning some dish towels that Miss Williams, sewing teacher, ordered for the class. They are also making some of the girls to work on them.

April fool day was enjoyed very much by some pupils.

About \$90 was cleared on the play last Friday which was given in the home gymnasium. We were very thankful the Pabst school for the use of their building. It was most kind of them and we appreciate it very much.

While Simmons has quit school and is leaving home, Sarah Cook has also quit school and is working in the store. Florence Margus has quit and is working in "Buck's" restaurant. Arvid Butler has quit and is going to leave.

The Shakhidovs have moved to Ft. Pierce.

Alvin Thompson who went to school here last year has arrived from Georgia on a work for Billie Harmon is a new pupil in the sixth grade.

The second grade and H. B. Harmon, Jr. in the fifth grade.

Ne. girls agriculture class are changing breeds of chickens. They have had mixed breeds, but now they are all pure breeds.

HIGH SCHOOL PLAY HELPS ASSOCIATION

Large Audience Enjoys Three-Act Comedy Presented At Pahoake

The three-act comedy-drama presented Friday night at the Pahoake school gymnasium by students of the Canal Point Agricultural high school received heartiest praise from the audience. The well-lighted house, expecting the usual amateur effort at "play actors" were greatly surprised at the near-professional manner in which "Deacon Dubbs" was performed.

Thurmond Knight, senior, taking the leading role, played the hero admirably in protecting his heroine, Miss Vera Todd, from the attacks of the villain, Lavagun Knight, Walton Bragg, as Deuteronomy, kept the house laughing with his antics on the stage, and was rivalled only by Devane Larrimore as Deacon Dubbs. Miss Mary Baker as Tixie, was as mischievous as a trickie could possibly have been, convincingly portraying Miss Philomena Power (the Mae Smith) who played her part as it should.

Eva Erickson as Vinnie Vernon was a lovely little girl, who played her part as it should. Miss Otis Vason as the auctioneer and Miss Elizabeth Lowe as Emily Daily furnished points of their roles.

Between acts the crowd was amused and entertained by Mrs. Revels, T. A. Bass and "Toby" Todd in their black face. They presented a dance number, returning for several encores.

Mr. Charles Young, director, received the congratulations of the audience and extended thanks in a short speech. Her efforts to present a good play were well rewarded.

The receipts for the evening will be sent to the athletic association fund of the school.

The Kennedy family from Moore Haven, accompanied by Mrs. L. Mothersbaugh, one of our former pioneer residents, spent part of Easter Sunday with friends and acquaintances here.

The Angimas attended the Easter services at South Bay at the parsonage in the absence of a church building. A new structure will ere long invite worshippers to the place of their gatherings. The 25th was almost the only part of the former edifice saved by the impartial hurricane.

Sawgrass fires south of the Bulles canal were sweeping westward toward the Miami canal for the last few days. A deputy fire warden was called to the scene, and in going along with George Graham, a fire in a boat of Thornton's to the end of the fire line, Sec. 1, Twp. 48-35.

Some miles south of Okelanta. These fires no doubt were set by the same party during the week preceding Easter.

E. J. Cooper, the present owner of the Bulles house and lot, is now repairing the wrecked structure, putting it in hurricane proof shape for the next blow.

The Red cabin has assumed a more presentable form under the kindly hands of George Graham. It is now a comfortable place for a family visit.

OKEECHOBEE

From The News.

D. R. McNeill and Wm. Griffiths were business visitors at West Palm Beach Tuesday.

Mrs. G. C. Durance returned Friday from Bartow where she had been visiting relatives.

Mrs. Frank Bradley and son left Thursday for a visit with her parents in High Springs.

Miss Jo Parish entertained the Fine Arts Club Saturday afternoon at the home of her sister, Mrs. D. R. McNeill on North Parrott avenue.

Those who attended the State convention of the American Legion this week in Jacksonville were: W. T. Conely, Jr., Harry Lamb, L. A. Turner and Harry Hutto.

W. H. Price who left last November with his family for Philadelphia, had accepted the position of District Engineer for Pennsylvania Coal Co. at Scranton, Pa. This is a big company and Mr. Price is indeed lucky to have a position with this company.

Mr. F. O. Collins and Miss Cady Collins returned Thursday from a visit to Lake Worth and West Palm Beach.

Mr. Charles Lovorn who is now connected with the Sebring American, spent the week end with his parents, Judge and Mrs. J. E. Lovorn.

Members of the Methodist church and their friends who assisted in the revival services, gathered at the home of Mr. and Mrs. J. O. Turner.

Canners To Get Warehouse Site

The Apie Brothers' fruit and vegetable cannery is now assured West Palm Beach and will be in operation next Wednesday at the Port of Palm Beach, the Palm Beach Post reports on Friday.

At a special meeting of the Lake Worth Inlet Commission, held in Terry Gibson's office Thursday afternoon, an agreement was reached between William Apie and the commissioners whereby Apie Brothers, Gainesville, will be given the right of use of the inlet for the purpose of a port and also a boiler and water supply.

Apie Brothers' proposal, which was accepted by the inlet commission, for \$50 a month, with the understanding that, at the end of four months, if Apie Brothers fail to purchase the boiler, they may do so at a cost of \$50, the \$50 rentals to be applied on the purchase price.

The canners agreed to pay \$1 a month, for four months, for the use of the warehouse, known as "the old transit shed," and the right to use the dock when not in use by steamship companies was tossed into the bargain as "bonus."

It was settled that \$15 a month would be paid for water, provided that the power bills for the water plant, now at the port, does not exceed the sum of \$32 a month, in which event Apie Brothers will pay the excess in addition to a minimum monthly charge of \$15.

The canners declared their willingness to provide additional water to the warehouse, which is seen to be a canning factory, in which the loads of the inlet district may be stored.

Embodied in the agreement, the canners were granted permission to make such minor alterations to the building as might prove necessary to its new use. Windows and doors will be added, it is understood, and overhead rail for freight transfer is to be added.

Captain A. S. Andersen, chairman of the board of commissioners, presided at the meeting and accepted a proposal made by M. R. McGuffee, steel salesman, who offered to purchase the structural iron work, purchased by the inlet district, and which has never been used, for the sum of \$85 for the right of use of the warehouse at the port, and work will be begun immediately.

MARKETING BUREAU ACTIVITIES VARIED

In the sixth bi-monthly report of the Florida State Marketing Bureau for the period from July 1, 1927 to March 1, 1929, T. W. Rhodes, commissioner of the bureau, reports a wide variety of services rendered to farmers upon request. Beside the well-known market reports issued from different agricultural sections the bureau supplies information of much worth to those who need it. The bureau offers advice and information covering plantings, competitive areas, domestic and foreign competition, cold storage holdings, assembling, grading, packing, inspection, processing, standardization, transportation, contracts, routing, refrigeration, precooling, diversions, classification, passings, offloads, deterioration, seasonal offerings, shipments, storage, shrinkage, financing, quality, supply, demand, foreign demand and supply, market preferences, embargoes, quarantines, health regulations, drying, canning, advertising, how and when to ship, when to ship to and where to ship, preparation, transportation, distribution and marketing.

The bureau also supplies information as to financial rating and commercial solvency of produce merchants, commission men and other buyers in all parts of the United States, Cuba, Canada and some parts of Europe, to the growers and shippers of the State upon request. A revised list of these dealers in various lines is ready at all times for distribution, and the names and addresses of all markets are available to growers and shippers.

The bureau publishes twice a month a "For Sale, Want and Exchange" bulletin which, the report states, goes to 17,000 people, carries free advertisement of all kinds of agricultural products, livestock, poultry and poultry products, farm implements, plants, seeds, shrubs, etc., has rendered a valuable service, listing over a period of nine years approximately \$400,000 worth of various farm commodities and cashing the sale or exchange of more than \$300,000 worth of them.

The bureau acts in an advisory capacity for producers, shippers, and distributors, when requested, and assists them in every possible, and practical way to locate markets, as to prospective sales in all domestic and foreign markets. No time or effort is spared in training the growers and shippers in the use of the ready sales for all Florida offerings, and we do all we can to improve the relations and services among producers, distributors and consumers of Florida produce.

The bureau has endeavored to bring about a closer cooperation between growers, shippers and marketing agencies in the regulation of shipping, standardization of grades and quality, to broaden, extend and improve in every practical way the distribution and sale of Florida products in all market centers; to encourage cooperation and business relations between producers and dis-

15,000 ACRES CANE SOUTH SHORE AREA

Additional Cane Planted To P. O. J. Varieties For Fall Grinding

CLEWISTON, April 3.—Planting of an additional 1,500 acres of sugar cane in the Bare Beach and Miami Locks districts east of Clewiston was announced here by W. C. Hanson, district manager for the Southern Sugar company, who said that the work is in keeping with its company's expansion program. P. O. J. varieties are being planted and the matured cane will be ready for grinding late this fall.

Of the 1,500 acres planted in the two sections there are 1,000 acres at Bare Beach and 500 acres at Miami Locks and the work is part of the company's expansion program. P. O. J. varieties are being planted and the matured cane will be ready for grinding late this fall.

The operations of the sugar company have been expanded to this community on the shore of Lake Okechobee, and it was announced that the company that the weekly payroll for field laborers exclusive of white foremen and others engaged in the industry, is in excess of \$100,000.

More than two million quarts of strawberries have already been shipped from Harder county this season according to figures compiled, this week.

On and including Wednesday night, March 20, 200,000 quarts of berries had left the Wauchula and Bowling Green markets.

FARMERS CAN SECURE FEDERAL LOANS NOW FOR REHABILITATION

Florida farmers who desire to obtain seed, feed, and fertilizer loans, and who are in need of such assistance, should get in touch with their county agents, who will help them in making the application for such loans. An announcement by A. P. Spencer, vice-director of the Agricultural Extension Division, T. W. Harvey of the United States Department of Agriculture, who is in charge of the loans in the Southeastern states, has just been in conference with Mr. Spencer, and plans for making the loans in Florida were perfected.

The act of Congress which made \$600,000 available for loans in Florida, Alabama, Georgia, South Carolina, North Carolina, and Virginia to rehabilitate farmers who had suffered storm damage, provides that all loans must first be approved by community and county committees. The county agents in Florida have organized these committees and they are now functioning.

Committees in Florida where storms have inflicted the most damage are: Baker, Bradford, Broward, Brevard, Collier, Duval, Escambia, Hamilton, Highlands, Indian River, Jackson, Jefferson, Lafayette, Leon, Liberty, Madison, Martin, Nassau, Oklawaha, Palm Beach, Santa Rosa, Suwannee, Taylor, Union, Wakulla, Washington, and Walton.

Mr. Spencer called attention to the fact that the federal government should get the loans available.

Loans shall be made for the purchase of seed for spring planting in 1929, seed for work stock necessary for actual farming operations, and for the purchase of fertilizer. No loans will be made for the purchase of other than work stock, and for poultry.

Where land is to be planted to cotton or tobacco, loans to the extent of \$8 per acre will be granted. For all other crops, the loans will not exceed \$3 to the acre.

The largest amount that may be borrowed by any one farmer is \$2,500.

Persons receiving loans are required to sign promissory notes, fully executed for the amount of the loans, payable to the United States Department of Agriculture on or before December 1, 1929. Interest will be charged at the rate of 5 per cent per annum.

Mr. Spencer said that if farmers desiring loans get in touch with their county agents or their community loan committees, the applications can be put through promptly. Temporary loan headquarters have been established at Columbia, S. C., and are in charge of T. Wood Harvey and L. E. White.

FARM NOTES

By Howard Sharp.
KINDS OF FARMERS

Some farmers are lazy and some are energetic, and it happens a good many times that the energetic farmers are men of foreign descent. Louis Skrobick, who farms a small tract near Moore Haven, is an energetic farmer; just now he is marketing strawberries and celery in towns on the west coast and the east coast.

Five years ago when I was running the Glades County Democrat, when much of the Glades was still suffering from the paralysis brought on by the 1922 flood, I noted that Skrobick had a fine field of corn; he had a crop when few other persons had anything growing. At the same time another farmer of foreign descent, Frank Matstie, had a field of celery near Moore Haven. A passenger conductor on the A. C. L. railroad, Mr. Patton, had financed the crop. But the bean growers and tomato growers did not have any crops.

If these instances prove anything they prove that men follow habits; that you can't make a strawberry grower or a celery grower out of a bean grower or a tomato grower. And that may be all right, too, for if a man isn't very good at doing the thing he likes best and puts most of his mind into it, he probably will be good at something else. Something he doesn't know anything about, which, although luck and accident may help him, just a lack and accident may hurt the intelligent, energetic man.

Of course Louis Skrobick can raise strawberries and celery at Moore Haven; strawberries and celery can be grown all around the lake, but how many farmers are going to do it? And the answer is: just as many as have the sense and energy.

MUCH PRODUCE SENT TO FOREIGN MARKETS

PORT PIERCE, April 2.—Approximately 41 carloads of perishable goods were shipped from Port Pierce the past week, of which 31 were in solid car lots and the balance in less than car lots by express.

The week's shipments comprised mostly citrus fruit, vegetables and fish, the solid car movement being 13 cars of citrus fruit, 11 of vegetables and five of fish.

The potato movement for the week ought to keep average, but it is expected that it will be resumed this week, although the bulk of the crop has been shipped. Preparations are being made for the opening of the tomato movement, scheduled to start April 8th.

Geo. Benseil Urges Action By Chamber

Continued from Page One

the odium would be against Florida, a most serious thing at this particular time in our readjustment.

Mr. Benseil here changed his subject to discuss drainage. "The condition of the West Palm Beach Canal is causing a serious situation, affecting drainage of lands back of our coast cities," he declared.

Mr. Benseil explained this as being the shoal or "bump" between Military Trail and a point ten miles west thereof, saying, "In flood periods, this canal, being practically shoaled or dammed, cannot discharge the water coming into it near the land and via the Loxahatchee slough and portions of the Lake Worth Drainage District.

Something must be done to remove the impediment." Mr. Benseil stated there exists no fund to finance reclamation work of this nature.

In speaking of freeing County Highway from toll, Mr. Benseil stated, "The total area used by the agricultural section even more, in my opinion than the agricultural sections need the cities on the coast."

"The lake region is becoming more and more self-supporting and because of having no easy means of access to that area, our express highways, are gradually learning how to take care of themselves."

"Already there have been several lands, wholesale mercantile companies and branch houses from competitive localities. Local entertainment is being provided and it will not be necessary for these people to do any business in the county seat."

"The people of the western portion of the county are willing to remain a part of our county just so long as we are fair to them and cooperate along reasonable lines," Mr. Benseil declared, stating that he had been assured that no effort would be made at next week's session of the legislature to split this county.

"These people are entitled to a free highway but they cannot get it unless we as a county get behind this movement with a just and urgent request to the legislature. Otherwise, in my opinion, another of the assets of this community will be lost to us because of our failure to act and because of our remaining a dormant onlooker."

"While I am on my feet, I would like to make the statement that, in my opinion, we are now on a definite up-grade, both from the tourist situation in the future and from the development of our agricultural resources and its kindred manufacturing industries which follow inevitably."

Why Grandma Locked the Cupboard-

There's many a middle-aged man and woman today who can remember when the family cupboard, or parts of it, were kept locked most of the time. One reason was the relation between the children's appetites and sugar, which in those days was scarce and expensive.

Considering the ample supply of pure, clean, white sugar nowadays it may be a bit hard to realize that only a few years ago sugar was a rare delicacy, and sweetening was commonly done with molasses or crude syrups. Yet the great war showed us what inconvenience and distress can be caused by a sugar shortage. Sugar is one of the most vitally necessary foods we use.

If we are to prevent serious shortages in future, we shall have to grow
